2.2 Engage in practices that advance human rights to promote social, racial, economic, and environmental justice. (CSWE, 2022, p. 9):

I had a sexual assault intake come in that needed assistance in reporting to law enforcement. I reached out to law enforcement, arranging for an investigator to meet the survivor at Partnership to facilitate the reporting procedure. Throughout this crucial process, I served as a support, addressing any inquiries from law enforcement and ensuring the client's needs were prioritized and met. I also provided emotional support to the survivor during this process.

This experience not only allowed me to advocate for a survivor who had her rights taken away, but also enabled me to advance her human rights and help her begin her healing journey. It was a great opportunity to make a difference in someone's life during such a vulnerable moment. 🗝️
