

Special Project Logic Model

Program Title: Recovery Kit

Statement of Problem: When fires happen, people may only walk away with what they have on their persons. The people affected by fire need immediate help to aid in their recovery. By having a pilot program that provides materials needed immediately after a fire, the recovery kit will help facilitate their recovery.

Inputs	Outputs		Outcomes (Impact)		
	Activities	Participants	Short Term	Medium Term	Long Term
Time Location Supplies	Survey for disaster responders	10 DAT members	Survey is handed out for DAT members to complete during the monthly DAT meeting	60% of the 10 DAT members complete survey	40 recovery kits are assembled and handed out the clients that experience a fire
	Get donations for the recovery kit	50 participants from my small group, friends, neighbors, and family	Participants agree to purchase supplies for the recovery kit	80% of 50 participants purchase and give the project manager the needed supplies	40 recovery kits are assembled and handed out to the clients that experience a fire
	Assemble the recovery kit	15 volunteers	Volunteers agree to assemble the recovery kit	75% of the 15 volunteers put together the recovery kit	40 recovery kits are assembled and handed out to the clients that experience a fire
