

YHDP

Logic Model Definitions

Case Management – Case Managers for YHDP develop relationships with clients to cater to their specific needs. They meet with clients regularly to help them set goals, find housing, employment, childcare, mental health services, and many other support services. The Case Managers typically carry a caseload of less than 20 clients and manage these clients throughout their time in the program. The Case Managers also maintain relationships with landlords to provide housing navigation, helping clients find and maintain housing.

Wrap-around services – The YHDP program seeks to provide for the needs of clients in many areas of life. Wrap-around services include life skills classes, connecting with mental health services, in-home visits, transportation to appointments, court advocacy, and anything else the client may need. The program also partners with the Chattanooga Regional Homeless Coalition to provide food, furniture, and financial assistance according to the needs of each client.

Skillset – Skillset refers to the abilities necessary to care for oneself and maintain housing stability independently

Independent Living Skills – Skills required to complete tasks of daily living such as cleaning a home, following laws and regulations, caring for one’s mental and physical health, and making healthy financial decisions.

Life Skills Assessment – The life skills assessment was adapted from the Casey Life Skills Assessment found at casappr.org. The assessment used by YHDP is completed online (<https://forms.gle/t2RKFs9RGynUtTgZ7>) or on paper.
