

Peer Work Group Evaluation Form

Instructions:

- **Read through all the instruction points before beginning!!**
- Please be **honest** in your evaluation.
- Please fill out **one** form for **each** group member, yourself included.
- As instructed in class, please **do not write “self”**; write your name as for another group member.
- The order in which you complete the group members’ evaluations does not matter.
- This document contains **six** forms – for six potential group members. Please scroll down for each new evaluation. If you need an additional form, please copy and paste it at the end of this document.
- **Bold** and/or **highlight** your answers. Your response must be able to be clearly seen on a black/white printout.
- Your responses are **anonymous!** Even though you are submitting your assignment through a dropbox, Moodle automatically assigns you a “*Participant Number*”, and only that number is visible to all the graders, your instructor included.
- Each submission will be graded for **10 points** and transferred automatically into the online gradebook. Moodle assigns the points internally.
- Remember that:
 - If you do not submit a peer evaluation, you will not receive the submission points. Just the submission of this evaluation may weigh up to **1-2% of your final individual grade**.
 - **Your responses will significantly impact the grades of your peers.** Therefore, please be honest, objective, and as detailed as possible to help the instructor understand each noted circumstance.
- **The evaluation begins on page 2.**
