Re: [REDACTED] DOB: 3/[REDACTED]

FINDINGS AND RECOMMENDATIONS

1. CASA found no concerns with the home.

CASE NOTES AND INTERVIEWS

CASA conducted an in-home interview with [REDACTED] and her aunt [REDACTED] and found no concerns with the placement. The house has 3 bedrooms, 3.5 bathrooms, functioning appliances, running water and smoke detectors. [REDACTED] has her own room and it is very spacious, personalized and clean. The uncle has a gun and it is securely locked in a safe.

[REDACTED] seems happy and safe in her current placement. She is currently receiving therapy through their church for depression and stress and her aunt is willing to seek therapy outside of the church setting if needed.

[REDACTED] is very concerned with her grades and qualifying for scholarships for college.
