Collegedale, TN 37315

Dear Mike McKee:

I am honored to present to you Life Information For Everyone (L.I.F.E.), an upcoming organization located in the heart of Chattanooga dedicated to serving, educating, empowering, and connecting community members. The life skill center is unique because the center will offer free services, classes, and counseling to all members from the ages of six years old and up. Many agencies in the surrounding area offer similar services, but the life skills center does not limit itself to one specific group. LIFE Skills center mission is to eradicate gaps in services and offer an array of programs that will benefit the citizens of the community.

I am writing to extend an invitation for you to become one of our partners and collaborate with us as we strive to help improve and positively enhance the lives of our neighbors. Not everyone is provided with the opportunity to receive services, guidance, or assistance with improving their overall well-being or learn new skills. Resource centers inform people of services in the surrounding area, and while we are informing the public of other entities in the community L.I.F.E. will be the place where their needs are met. The community members served will be in various life stages but life skills are applicable and relateable to all of them. A community is made up of families and families of individual people; as a person's life is enriched their families are more successful, which then creates a healthier and happier community. You can help be the keys that unlocks a world of home in someone's life.

As mentioned before there are other community resource centers in Chattanooga that provide similar services to help people, but L.I.F.E stands apart as efforts are geared towards prevention and education. Life skills are a necessary part of everyday life for everyone which is why the demographic of those served is a wide range. As generations, society, technology, etc. continues to evolve and grow the way in which L.I.F.E. serves the populace will adapt accordingly. Volunteers and staff are familiar with the community of Chattanooga, which strengthens relationships and connectedness among members. Staff and the public joined together as one leaves no room for anyone to be left alone or unhelped. The little things go a long way, join our Chattanooga family for life.

I thank you in advance for your consideration of donating towards our cause; your donation is tax-deductible and will be used to make the change we wish to see.

Sincerely,
L.I.F.E Representatives
