She talked about internet crimes, internet safety, trafficking, child pornography, and what information you should share with students so that they are educated and safe about their use of social media and the internet. This was very enlightening, because I learned about several apps and websites which I did not know existed, and I learned about the process for how professionals aim to protect young people in the world of internet safety. This presentation was very applicable to me as a school social work intern who is always engaged with students who are most all users on social networking sites.</p> <p>3.2 This week I went to Calhoun, GA to attend the school social work district meeting. This was a great chance for me to meet and talk with other social workers and hear about what kinds of things they are implementing in their schools. I got to hear professionals share stories about what has been/has not been effective when working with their students. I also heard about new programs and concepts which some social workers are introducing into their school systems.</p>
