Amén Franklin,

Katherlyn, Karen, Samir and panel.

Thank you for planning and directing our panel last night. I was humbled and honored to be part of it with such great community leaders that want the peace and wellbeing of our city for all people.

May God continue to use and bring our differences together in harmony and positive ways to unify and impact our community that desperately needs it.

It reminds me what the apostle Paul said in the Bible. "Let's keep up the good fight" it's a fight, but a good fight!

Please don't hesitate to count me in for any future meetings or assistance that I can be part if.

May the Lord keep everyone safe and that He may bless everyone's upcoming holiday seasons!

*Blessings,*

Katherlyn: Thank you for letting this old guy be part of your panel last night. I thoroughly enjoyed hearing our colleagues speak, and I thought Karen & Samir did an excellent job of keeping us at our task and moving us along to confront and discuss the important issues you raised for the Chattanooga/Hamilton County community.

I believe that you, as an elected Hamilton County Commissioner, hold one of the most important positions in our Southeast Tennessee area. Your open and honest voice for truth in all matters is a beacon for all of us. Speaking specifically to an area of life to which my wife and I have been committed for over 50 years, interracial equity, harmony, and togetherness are goals which all citizens must seek if all our people are to fully participate and prosper in our American Democracy.

I hope you and all colleagues listed here will stay safe and well during this difficult and dangerous time of pandemic.

Best,
