Good afternoon Mr. Shoemaker,

I appreciate your patience with getting in contact with me. I was hoping to talk to you on Thursday but unfortunately client needs arose prior to my available time to call. I was able to leave you a voicemail. My name is Daniel and I am a masters level social work school-based intern with Centerstone. Since August 2020, I have been developing the skills to provide therapy services for clients in Bradley County Schools. In addition to doing therapy one-on-one I also had the opportunity to support the Trek Program at Goal Academy: which included implementing an anger management/ social emotional learning psycho educational group alongside a seasoned therapist from Centerstone.

Using google slides, I have been developing an 8 lesson curriculum on anger management and social emotional learning for teachers at Goal Academy to have access to post graduation. I was wanting to get your thoughts on the possibility of sharing with the school board the importance of SEL and how to disburse the information. Attached is an infographic that supports the power of emotional intelligence that I created.

Sincerely,

Daniel J. Varela
